

JOEY™

PREMIUM SPRINGINNERSPRING SYSTEM

Exclusive manufacturing ingenuity and **revolutionary** coil design combine to create this **premium** pocketed innerspring.

Produced exclusively by **Leggett & Platt**, Joey utilises **advanced** coil-within-a-coil technology, generating a sleep system that **intelligently** responds to individual body weights, shapes, and sleep patterns.

Strategically targeted springs contain **secondary interior coils** which, once engaged, increase in firmness as more weight is applied. This **"self-posturising"** system identifies and reacts to every individual body movement. Joey coils offer **sublime** levels of sleeping comfort with essential body alignment and support characteristics.

Joey pocket coils offer huge potential for your bedding products...

Call +44 (0)1226 707550 to learn more or visit www.leggetteurope.com

The **Active Support Technology®** of innersprings allows your muscles to relax in a more natural sleep position. The coils adjust instantly to your sleep movements, comforting and supporting your body actively.
